

IQAI

INTELEGENGE AI

AI-POWERED RESEARCH. BLOCKCHAIN UTILITY.

IQAI is a developing AI and blockchain ecosystem built around practical tools, transparent rollout, and responsible community growth.

ASK IQAI

Financial research, comparisons and summaries.

BUYBACK & BURN

Transparent supply-reduction tools and reporting.

IQAI CALCULATOR

Explore supply changes and burn percentages.

STAKING

Planned participation and reward utility.

BUILDING THE IQAI ECOSYSTEM

Contract deployed and verified. Trading is not yet enabled.

EXECUTIVE SUMMARY

IQAI brings together an AI-powered research interface and a token deployed on BNB Smart Chain. The project is being developed in stages, with accuracy, usability, security, and cost-conscious growth as guiding principles.

PURPOSE

- Make financial and digital-asset research easier to explore.
- Connect useful AI tools with transparent blockchain utility.
- Build the four core utilities: Ask IQAI, Buyback & Burn, the IQAI Calculator, and Staking.
- Add future research tools only after testing and validation.

CURRENT STATUS

- Wix Studio website in final development
- Smart contract deployed and verified
- Trading has not been enabled
- Public tools and community rollout are being tested

OPERATING PRINCIPLES

- Accuracy before promotion
- No prediction claims or guaranteed outcomes
- Clear disclosure of unfinished features
- Security controls during initial rollout

CORE DIRECTION

IQAI is designed as a practical ecosystem, not a promise of returns. Its value will depend on execution, adoption, responsible development, and the usefulness of its tools.

VISION, NEED & FUTURE TOOLS

THE NEED

Financial and crypto information is scattered across websites, videos, social posts, and technical documents. Users often need a faster way to organize, compare, and summarize that material.

OUR APPROACH

Ask IQAI is intended to help users research financial topics, compare information, and generate clear summaries while keeping source verification and independent judgment important.

TOKENOMICS ANALYZER

Organize supply, allocation, vesting, and contract information.

PROJECT COMPARISON

Compare selected projects using consistent criteria.

DOCUMENT SUMMARIZER

Condense white papers, filings, and long reports.

VIDEO & EARNINGS SUMMARY

Summarize supported transcripts and financial discussions.

Future tools are planned features. Their scope and release timing may change after testing.

CORE UTILITIES

The following four utilities form the core of the IQAI ecosystem.

1. ASK IQAI

An AI-powered interface for research, comparisons, and summaries focused on crypto, stocks, and financial topics. Outputs are informational and should be independently verified.

2. BUYBACK & BURN

Eligible ecosystem revenue may be used for transparent IQAI token buybacks and permanent burns. Timing, amounts, and funding percentages will be published when finalized.

3. IQAI BURN CALCULATOR

Calculates remaining supply and the percentage burned, shows visual burn progress, accepts an optional BscScan transaction ID, and displays a session-based burn history. It does not yet verify transactions on-chain or permanently store history.

4. STAKING

A planned utility intended to support participation in the ecosystem. Reward rates, lock periods, pool size, eligibility, and launch timing have not yet been finalized.

TOKENOMICS & LAUNCH PROTECTION

10,000,000 IQAI

Fixed total supply | BNB Smart Chain | 18 decimals | No additional minting

APPROVED ALLOCATION

Liquidity	25%
Marketing	20%
Development	15%
Staking Rewards	15%
Treasury	10%
Advisors & Team	10%
Airdrops & Community	5%

WHY LAUNCH CONTROLS EXIST

Temporary tax, wallet, transaction, cooldown, blacklist, and anti-bot controls are included to reduce bot activity, unfair trading, and attempts to drain liquidity during rollout. These restrictions are intended to be reduced or permanently disabled after trading is live and stable.

CONTRACT

0x8fa884D70006aa899530228d6b91a75e8b8a7C26

ROADMAP

PHASE 1 - FOUNDATION

Q3 2026 - IN PROGRESS

- Wix Studio website and branding
- Verified smart contract
- Ask IQAI integration and testing
- Tokenomics and launch-security framework
- Desktop and mobile completion

PHASE 2 - COMMUNITY & ROLLOUT

Q3-Q4 2026

- Email waitlist and social communities
- Public Ask IQAI demo
- Controlled token rollout
- Airdrops and giveaways
- Initial liquidity and trading
- Eligible data-platform applications

PHASE 3 - BROADER TOKEN LAUNCH

AFTER COMMUNITY MILESTONES

- Expand public token availability
- Lock designated liquidity
- Activate buyback-and-burn program
- Continue exchange and data-platform applications
- Community growth campaigns

PHASE 4 - UTILITY & GROWTH

BEYOND LAUNCH

- Launch staking
- Expand Ask IQAI features
- Develop analyzers and summarizers
- Build partnerships and integrations
- Continue ecosystem development

TECHNOLOGY & SECURITY

PLANNED PLATFORM STRUCTURE

- User interface: questions submitted through Ask IQAI.
- AI processing: selected services support research, comparisons, and summaries.
- Research tools: future analyzers, comparisons, and document/video summaries.
- Blockchain: the IQAI contract handles transfers, security controls, and burns.
- Future integrations: additional sources and AI tools added after testing.

VERIFIED CONTRACT INFORMATION

- Source code verified on BscScan.
- Fixed supply of 10,000,000 IQAI; no additional minting after deployment.
- Trading is currently disabled.
- Temporary tax, wallet, transaction, cooldown, blacklist, and anti-bot protections.
- Ownership retained during rollout to manage security settings.
- Liquidity lock planned when liquidity is established.
- Automated scanning completed; no formal third-party audit submitted.

SECURITY APPROACH

Launch controls are designed to reduce bot activity, unfair trading, and threats to liquidity during rollout. Restrictions are intended to be reduced or permanently disabled after trading is live and stable.

PROJECT INFORMATION & NOTICE

PROJECT SNAPSHOT

TOKEN	IntelligenceAI
SYMBOL	IQAI
NETWORK	BNB Smart Chain
TOTAL SUPPLY	10,000,000 IQAI
STATUS	Contract deployed and verified; trading not yet enabled
WEBSITE	https://intelligenceai.com

STAY INVOLVED

- Join the email waitlist and follow official rollout announcements.
- Test the public Ask IQAI demo when released.
- Use only links published on intelligenceai.com.

IMPORTANT NOTICE

This white paper is provided for informational purposes and describes the current plans for IQAI. Features, timelines, token utilities, taxes, security controls, allocations, and rollout details may change as the project develops.

Nothing in this document constitutes financial, investment, legal, or tax advice, or an offer or guarantee of returns. Digital assets involve substantial risk. Users should perform independent research and follow all applicable requirements in their location.
